Sir,

Adverting to your Circular memo
No. 7495-503 / R. 3416 dated the 21st April last, calling for
opinion regarding the extension of the system of recording
finger prints to all classes of pensioners, I have the hon
-our to invite reference to my letter No. 740 dated 2nd
June 1899 applying for a copy of the rules for re-
-cording finger-prints and to state that no reply
has as yet been received to it. In the absence of the
Rules to indicate the manner in which the System
is to be given effect to, I am unable to say whether it
will be regarded with favour by pensioners to whom
it is proposed to apply it. For purposes of identi-
-fication at the annual inspection of pensioners
by the paying officers, finger-prints impressed upon
the Treasury officer's half of the Permanent Payable-orders
would, no doubt, be of the greatest use. The System

may

may also be usefully brought into force in respect of Munzarai Stipendiaries. The manner of using these finger-prints for purposes of identification should be clearly explained in the Rules to be issued on the subject.

Dy. Commissioner,

No. 778

Enc. 2

Bangalore
24th February
1900

Memo

Begs to state that the apparatus required for taking finger impressions and the manner in which they should be taken, are explained in paras 3 and 4 of the printed Rules received from the Accountant General, Madras through the Comptroller in Mysore and also in para 3 of Circular No. 1514 of 18th March 1898 from the Controller, Military Accounts, Madras Command - (Extracts herein enclosed for ready reference)

2 - No such special apparatus was purchased for use in this District; or any supplied to the Talups for that purpose -

3 - The practice followed in the District Treasury is as follows: —

A small quantity of printing ink is dropped on a

piece of glass, and the same rubbed on its surface with a drop or two of Kerosine oil added to make the ink more fluid. The finger impressions are then taken, as per instructions contained in the Circulars referred to above. This seems to answer the purpose.

Madras Command.
Madras, the 18th March 1898.

Circular No. 1514.

Identification of Native pensioners by means of finger-impressions

× × × × × ×

3. Impressions of the left thumb should be taken in the following manner:—

"A small quantity of ordinary printer's ink mixed with a very small quantity of sweet oil, to should be well rubbed on a piece of thick glass until a very thin even layer is formed. The ball of the thumb of the left hand of the pensioner, after being wiped, is should be laid on the inked slab and rolled from side to side (not rubbed) until sufficiently inked (this can be learnt from experience) and then lightly and carefully rolled on

on the paper on which the print is to be taken in such a way that the pattern of the whole of the ball of the thumb from side to side is clearly impressed on it. It must be specially borne in mind that any side movement, either at the time of applying or removing the thumb will cause a smudge and spoil the impression."

Sd/ G. N. Sawyer Colonel
Controller of Military
Accounts.

Extract
M. Ramaiah Rao
Treasury Officer
SR Bangalore District

Rules for the Record of the Finger-prints of Government servants and pensioners and for the utilization thereof.

3. The apparatus required for taking impressions consists of the following articals:—

A sheet of tin or Copper, 10½ inches by 7, or of such other size as experience may show to be most convenient, screwed down by its Corners to a board one inch thick; an ordinary printer's roller and a tin of printer's ink. Both roller and slab must be thoroughly cleansed with Kerosine-oil on each occasion after use, dried with a rag and put out of the way of dust

4. The manner in which impressions should be taken is explained below:—

(i) Squeeze a drop of ink on the plate and work it with the roller till it forms an even layer over the surface. The ink must be so thin as to allow the Colour of the plate to show through it.

(ii) Then take the little finger of the left

left hand, roll the bulb slightly on the inked slab and roll it again on the paper in the space marked for that finger; do the same with each of the other fingers and thumb in succession so that the imprints of them may be taken in their allotted places on the paper.

Note. — A drop or two of Kerosine-oil added to the ink makes it more fluid. The inked finger should only be rolled once on the card from one side to the other and then removed cleanly without smudging the pattern. To afford clear scope for identification, the whole of the finger (or thumb) between the tip and first joint must be impressed.
